MATLAB Installation Instruction

MA1101R LINEAR ALGEBRA

In this course, we use a highly acclaimed numerical computing software MATLAB, which stands for *Matrix Laboratory*. The National University of Singapore has a Total Academic Head-count License for MATLAB. Students may use it for academic, research, and learning. The license allows students to install MATLAB on personally-owned computers.

1. If you are NOT using NUS network, you are required to use nVPN:

    https://webvpn.nus.edu.sg/

    Please sign in with your NUSNET ID in the format: **nusstu\nusnetid** and

    password. If you are using NUS network, please proceed to Step 2.

2. Click the link https://sm05.stf.nus.edu.sg/studentmatlab/to download MATLAB. It is required to sign in with your NUSNET ID in the format: **nusstu\nusnetid** and password.

3. Create a MathWorks account using your NUS email address.

    (i) https://www.mathworks.com/mwaccount/register
    -   Email address: Your NUS email account (e.g., e0012345@u.nus.edu)
    -   Location: Singapore
    -   How will you use MathWorks software? Student use
    -   Are you at least 13 years or older?   Yes

    (ii) You will receive an email from service©mathworks.com with title

    "Verify Email Address". Click the link in the email to verify your account.

    (iii) Finish creating your profile. Then you should be able to see the following information:

    Your account has been created and license 40707750 has been associated with your account.

4. Click the **Download** bottom to download and run the installer.

    (i) When prompted, log in with your MathWorks Account (your NUS email account).

    (ii) Select your licence (40707750, Student, Academic — Total Headcount).

    (iii) Choose an installation folder in your PC.

    (iv) Select products to install. For MA1101R, it suffices to install only MATLAB 9.6.
